

Pins

Product Description

Cloisonné Pins

The ideal way to reproduce your logo attractively and economically. The design is sharply stamped into jewelers metal then filled with vitreous enamel. The piece is then kiln fired to fuse the color directly to the metal. After final polishing and plating, the colors are vivid and stone hard. Most of the process is hand done to assure fine detail and the highest quality possible, from the initial die to the final polishing.

Production Time: Generally 4 to 6 weeks

Plated Finishes: Gold - Silver - Black

Setup: One Time Die Charge

Backings: Standard Military Clutch Back

Packaging: Individually Poly Bagged in Bulk

Why Lapel Pins?

- * Custom made to your specifications.
